Creative Coverstitch

Primo

Primo is the first Baby Lock Coverstitch machine equipped with an exclusive top coverstitch and dual wiper system – a groundbreaking innovation that unlocks a whole new level of creative flexibility and stitch variety.

Featuring ExtraordinAir™ chain looper threading, Needle Automatic Thread Delivery (ATD), needle positioning button, a wide throat space, powerful LED lighting and a presser foot knee lift, the Primo makes sewing fun and lets you unleash your imagination – bringing your project ideas to life!

COVER STITCH

Extraordin
Air™
THREADING

ATD NO TENSION
ADJUSTMENTS

Discover a new level of creative flexibility and stitch variety with the Baby Lock Dual Wiper system.

This unique system unlocks a new variety of top coverstitches. Use either a single or double wiper thread, in combination with triple cover, wide cover, narrow cover or chain stitches. Along with a range of optional accessory feet and attachments, the only limit to your creativity is your imagination!

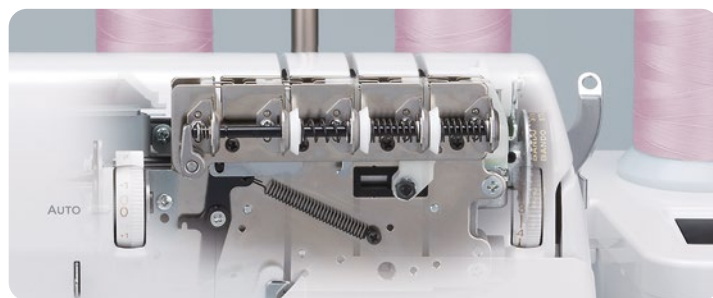

ExtraordinAir™ Threading System for instant looper threading

Threading your creative coverstitch machine has never been this easy! Simply insert your thread into the threading port, press the button and a blast of air shoots the thread through the tubular looper.

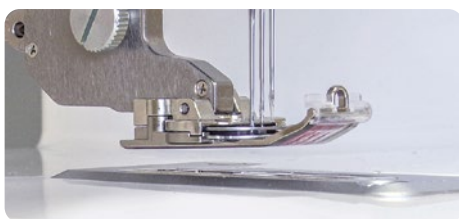

Needle Automatic Thread Delivery (ATD) System

The Primo can be threaded in any order and removes the need to manually adjust needle tensions, giving you a perfectly balanced stitch always. The ATD System delivers the required length of thread to achieve a balanced stitch, rather than putting tension on the thread itself – allowing you to stitch continuously on most fabrics and thread types without skipping stitches.

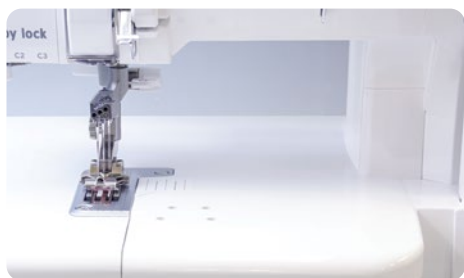

Convenient presser foot control via presser foot lever on the right of the machine, or knee lift for keeping both hands on your sewing.

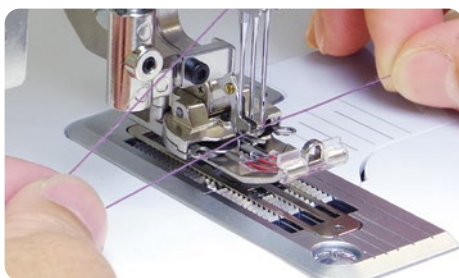

5.5mm Presser foot height in conjunction with the Drop Feed System which lowers the feed dogs automatically, allows you to easily work with thicker fabrics.

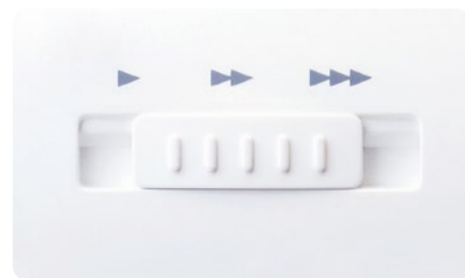

Needle positioning button ensures your needle position stays in place – up or down.

5-Inch throat space for accommodating larger projects with ease.

Built-in needle threader for easy, stress-free needle threading, every time.

Convenient variable speed control slider Up to 1,500 stitches per minute.

Other features

- 3 Powerful LED lights for even workspace lighting
- Vertical needle system minimises needle deflection and breakages
- Triple, wide and narrow coverstitch
- Easy presser foot pressure adjustment via dial on the left of the machine
- Differential feed for more consistent gathering of fabrics and compensating for stretch distortion
- Built-in thread cutter
- Bypass port and guide for thicker threads
- Built-in accessory storage
- Magnetic needle storage tray
- 3 Safety switches
- Standard presser foot (with shank) included
- 9 Optional micro insert feet
- 11 Optional accessory feet
- 23 Optional accessory attachments
- Machine weight 12.2kg
